- ✓ Liposuctions (e.g. double chin) and fat transfer (in order to fill volume deficits)
- ✓ Eyelid corrections (bagged eyes through special muscle technique, lacrimal sacs)
- ✓ Brow lifting with the own developed flat incision technique, less scars
- ✓ Ear corrections
- ✓ Lip corrections
- ✓ Facial reconstructions after accidents, burns or skin cancer

Breast

- ✓ Breast augmentation with "Mentor Implants" (from the USA) and with own fat transfer
- ✓ Breast reduction and tightening
- ✓ Breast reconstructions after breast cancer

Reconstructive Surgery

- ✓ Tumor removal and reconstructions
- ✓ Closure of soft tissue defects at head, face and body (flap surgery/ skin transplantation)
- ✓ Nerve decompression at hand and arm

OUR WORK

Our work is characterised by professionalism, great diligence, year long experience, perfection, integrity and ethos and personal devotion for the well-being of our patients. The patients' satisfaction is of top priority for us. The infrastructure of the clinic both in Zurich and Schaffhausen allow for surgery of the highest quality, utilising the newest and most recent techniques within the realm of plastic and aesthetic surgery.

Prof. Dr. Feinendegen (MD) regularly publishes in peer-reviewed, high impact international journals and represents his specialty in national and international conferences by giving presentations about his recent work and as being an instructor for training on the job.

In 2021, he received from the Faculty of Medicine of the University of Odessa (Ukraine) the professorship and lectureship for the development of plastic surgery at the University of Odessa.
